

METRONOM solar

Our only handheld Device with Frequency Scan

Single frequencies
and frequency-
scan to support
the ability of
regulation

You can use the **METRONOM solar** with its pulsating electromagnetic field according to your requirements on **lack of concentration, electrosensibility, exhaustion** and to **support a recreative sleep**. Choose one of its five programs and simply put the device close to you (i.e. on your solar plexus or in your pocket). It is around the size of a pack of Kleenex® and has a physiological range of approximately 80 cm (31.5 inches) in diameter.

The **METRONOM solar** combines the most important functions our handheld devices **MEDISEND®** and **MEDICUR®**. Additionally the **METRONOM**-devices (the **METRONOM solar** as well as the **METRONOM C**) are the only electromagnetic field handheld devices developed by Dr. Ludwig® that offer besides the single frequencies also an automatic frequency scan.

Besides the different programs/frequencies you can select from, the **METRONOM solar** always also generates the **Geomagnetic frequencies**. In contrast to the **MEDISEND®** it additionally generates the **Solar frequencies** - regardless wich program you choose. You find more information about Schumann, Geomagnetic and Solar frequencies inside this brochure.

METRONOM solar...

5 settings

offers **five different programs/frequencies**, that you can choose from depending on the situation (see table on the backside). Four **single frequencies** and a periodic **frequency scan** support your body's ability of regulation.

Zapper
functionality

strengthens the organism with its **frequency scan**. Using this setting, the range of its harmonic waves even reach the **megahertz area**. Hereby the **METRONOM solar** even generates frequencies of Hulda Clark and Royal Rife and this is why it can used as an **alternative Zapper device**. Unlike the stimulation current which is used by usual Zapper devices, the electromagnetic field even reaches the **intercellular space**.

Substrat
transients

transfers information of all kinds of substrats with the help of the included ampoule holder. These substrats can be homeopathic remedies, Bach flowers and more. The electromagnetic field is used as the carrier wave.

5 elements of
chinese Medicine

can be related to the **five elements of the Traditional Chinese Medicine (TCM)** by its frequencies (see table on the backside).

shuts off automatically after 30 minutes. If required the automatic shut-off can be deactivated.

Symbol and chin. element	Frequency	Examples of use
Earth	Frequency scan 1000 - 1 Hz	Basic program <ul style="list-style-type: none"> • stabilizing of the organism • harmonizing of the autonomic nervous system • Zapper functionality due to harmonic waves up to the megahertz area
Fire	33 Hz	stimulating <ul style="list-style-type: none"> • sets energy free • helps against exhaustion, tiredness, debility, lack of energy
Wood	7.8 Hz principle value of the Schumann frequencies	balancing / stabilizing <ul style="list-style-type: none"> • gives strength, calmness, balance and concentration • 7,8 Hz is the principal value of the Schumann frequencies and our most important „well-being frequency“ • energizes any food containing water by putting the device next to it for around one minute
Metal	3.0 Hz	calming / relaxing <ul style="list-style-type: none"> • helps to relax and to sleep, supports against uneasiness and sleeping troubles
Water	1.2 Hz	Electrosensibility <ul style="list-style-type: none"> • helps with sensibility to electric smog • 1.2 Hz is the Nogier frequency and supports relaxation and regulation

The devices that are developed by **Dr. W. Ludwig®** are identified with the **arrow symbol**. This symbol stands for generating an electromagnetic biofield as in undisturbed nature. The frequency spectrum of the 64 essential trace elements (Geomagnetic frequencies) is generated by a worldwide unique process.
